The Superintendent may thereupon order the Contractor, from whose depôt the laborer is removed, to pay him such a sum of money as to the Superintendent shall seem necessary in order to enable the laborer to return to the place where he was registered: and on failure of the Contractor to pay such sum within twenty-four hours of his being ordered to do so, the Superintendent may advance the amount to the laborer: and all the provisions of the last preceding Section as to sums advanced by the Superintendent shall be applicable, so far as the circumstances of the case will permit, to advances made by him under this Section.

Railway,—Head-Quarters.

Benares, the 7th February 1863.

Notification.—His Excellency the Viceroy on his arrival at this City desires to congratulate the Officers of the East Indian Railway Company and the Public on the completion of the additional section of the Grand Trunk line of Railway from Calcutta to the North-Western Provinces that has been recently opened to Benares, and on the prospects of the early opening of the whole line for traffic up to Allahabad and Delhi.

2. The distance from Calcutta by Rail to Benares is 541 miles. Work was begun in 1851. The line to Burdwan was opened in February 1855 ; to the Adjai in October 1858 ; to Rajmehal in October 1859 ; to Bhaugulpore in 1861 ; to Monghyr in February 1862, and to Benares in December 1862. In ten years therefore have been opened (including Branches) a continuous length of 601 miles, being at the rate of 60 miles a year. This is exclusive of the portion of the line already finished between Allahabad and Agra in the North-Western Provinces, and of the section from Agra to Allygurh, which it is expected will be ready in a few weeks. Including this length the progress of the East Indian Railway has not been short of 90 miles a year, a rate which, if it has not come up to the expectations first entertained, is, under all the circumstances of the case, satisfactory as regards the past, and encouraging as regards the future.

3. On his journey from Calcutta to Benares His Excellency observed with much interest the numerous striking works that have been so successfully constructed on this Railway by the Company's Engineers, and viewed with particular admiration the great Girder Bridge over the Soane, which, it is believed, is exceeded in magnitude by only one Bridge in the world. The smaller Girder Bridges over the Keeul and Hullohur, the heavy flood arching in the vicinity of these rivers, the masonry Bridges over the Adjai and More, and the Monghyr Tunnel, also attracted the attention of His Excellency the Viceroy, as works of more than ordinary difficulty designed and carried out with signal ability.

4. His Excellency the Governor General gladly accepts this opportunity of acknowledging the services rendered by the Officers of the Railway Company in the prosecution of this great work ; and of expressing more especially the strong sense he entertains of the high engineering skill and the steady devotion to his duties exhibited by Mr. George Turnbull, the Chief Engineer of the Company in Bengal, who in a few days will give up the direction of the works which he has now seen completed. Although not in the immediate employment of the Government, Mr. Turnbull has in the opinion of His Excellency well earned the expression of the thanks of the Governor General for his professional services, which have indeed been rendered as much to the Public as to the Railway Company. In all Mr. Turnbull's dealings with the Officers of the Government he has invariably shown that moderation and desire to conciliate which were essential for the harmonious and successful carrying on of the Railway Works, under the peculiar conditions imposed by the terms of the Government guarantee ; and the Governor General has much satisfaction in signifying in behalf of the Government of India his high estimation of the manner in which all Mr. Turnbull's relations with the Government have been conducted.

5. His Excellency the Viceroy will not fail to bring to the favorable notice of Her Majesty's Government the long and excellent services of Mr. Turnbull, who, having been the first Railway Engineer employed in India, has now happily seen the portion of this great work on which he was more particularly engaged brought to a close after many years of arduous and persevering labor, under circumstances of unusual difficulty, with the most complete satisfaction to his employers, and to the Government, and with the highest credit to himself.

On Tuesday, the 17th February, the abovementioned Princes and Chiefs, with their attendants, the principal Native residents of the Agra Division of the North-Western Provinces, and the Civil and Military Officers of Agra and the adjoining Districts were received by the Viceroy and Governor General in open Durbar.

When all were assembled the Viceroy and Governor General entered and took his seat under a Royal Salute. His Excellency then addressed the assembled Chiefs in the following words:—

"*Princes and Chiefs.*—In inviting you to meet me here it was my wish, in the first place, to become acquainted with you personally, and also to convey to you, in obedience to the gracious command which I received from Her Majesty the Queen upon my departure from England, the assurance of the deep interest which Her Majesty takes in the welfare of the Chiefs of India. I have now to thank you for the alacrity with which, in compliance with my request, you have, many of you from considerable distances, assembled at this place.

"Having received during the course of the last few days many of the principal personages among you in private Durbar, where I have had the opportunity of communicating my views on matters of interest and importance, I need not detain you on this occasion by many words.

"Before taking leave of you, however, I desire to address to you collectively a few general remarks upon the present state of affairs in India and upon the duties which that state of affairs imposes upon us all.

"Peace, I need hardly remind you of the fact, now happily prevails throughout the whole extent of this vast Empire. Domestic treason has been crushed, and Foreign enemies have been taught to respect the power of the Arms of England.

"The British Government is desirous to take advantage of this favorable opportunity, not to extend the bounds of its dominions, but to develope the resources and draw forth the natural wealth of India, and thus to promote the well being and happiness both of Rulers and of the people.

"With this view many measures of improvement and progress have already been introduced, and among them I may name as most conspicuous the Railway and Electric Telegraph, those great discoveries of this age which have so largely increased the wealth and power of the mightiest Nations of the West.

"By diffusing education among your vassals and dependants, establishing Schools, promoting the construction of good Roads, and suppressing, with the whole weight of your authority and influence, barbarous usages and crimes, such as Infanticide, Suttee, Thuggee and Dacoitee, you may, Princes and Chiefs, effectually second these endeavors of the British Government, and secure for yourselves and your people a full share of the benefits which the measures to which I have alluded are calculated to confer upon you. I have observed with satisfaction the steps which many of you have already taken in this direction, and more especially the enlightened policy which has induced some of you to remove transit and other duties which obstructed the free course of commerce through your States.

"As representing the paramount power it is my duty to keep the peace in India. For this purpose Her Majesty the Queen has placed at my disposal a large and gallant Army, which, if the necessity should arise, I shall not hesitate to employ for the repression of disorder and the punishment of any who may be rash enough to disturb the general tranquillity. But it is also my duty to extend the hand of encouragement and friendship to all who labor for the good of India, and to assure you that the Chiefs who make their own dependants contented and prosperous establish thereby the strongest claim on the favor and protection of the British Government.

"I bid you now Princes and Chiefs farewell for a time with the expression of my earnest hope that, on your return to your homes, health and happiness may attend you."

After the concluding ceremonies the Viceroy left his seat under a Royal Salute. The Maharajahs of Gwalior and Jyepore and the Secunder Begum of Bhopal having been conducted from the Tent the assembly broke up.

On Wednesday, the 18th February, the Viceroy and Governor General, accompanied by the Secretary to the Government of India and by the Officers of His Excellency's Personal Staff, paid return visits to thirteen of the Princes and Chiefs in succession at their respective encampments.

His Excellency was met by the Chiefs themselves and by their principal Ministers in accordance with established custom, and was received at each encampment, both on arrival and departure, with a Royal Salute.

In each case the usual offerings were presented and accepted, and the customary ceremonies having been observed His Excellency retired.
